

Sets, Kits, and Outfits, Components List for Mat Set, Landing And Hand Receipt Manual

SC: 5680-95-E04
NSN: 5680-00-089-7260
LIN: M15665

System Description

This set supports the creation of expedient landing surfaces capable of sustaining impact and breaking forces of C-17 through C-5 aircraft, the creation of expedient travel surfaces for the cross country movement of all military ground vehicles, and the creation of expedient surfaces for the storage of personnel and supplies. This set provides mats, connectors, and ancillary items that are truck or container deployable in prepackaged, lightweight, easily installed, low maintenance, easily repaired configurations.

System Mission

The landing mats supports the creation of expedient landing surfaces capable of sustaining impact, the creation of expedient travel surfaces for the cross country movement of all military ground vehicles, and the creation of expedient surfaces for the storage of personnel and supplies.

Reset Responsibility

Unit

Reset Location

This system is not currently in reset.

This system is not currently in reset.

Reset Type

Reset Work (Field Level) - Work performed to correct equipment faults that are performed at the ORG/DS level; performed by unit level soldiers, augmented by contractor as required.

Reset Strategy

This is a major item (PA funded) with no stock on hand and is no longer procured. There is no replacement NSN for this item. Last procurement of this LIN was in the 1960-1970s. Within the last 2 years, there has been no demands. This item has no warranty and no overhaul or repair program. Unless the set is in condition code A or B it should be sent to the unit's local DRMO for disposal. With no demand history in the last 2 yrs, starting a new TDP and having production started would be very costly.
